Geck® SaniTower – Ingenious hand hygiene.

Would you like to give your clients, guests, customers and patients a safe hand hygiene feeling? Do your hygiene stations cause you a lot of a lot of maintenance work and time and again avoidable annoyance and stress? Then why not convey a sense of security to your visitors with a professional „point of care“, you will give your visitors a safe, pleasant hand hygiene feeling! Competence right from the start!

The Geck® SaniTower
offers you the perfect solution

- High quality product design
- Modular expandable design
- Can be customised with company logo and frame colour
- Approved for all liquid, alcohol-based disinfection solutions
- Lockable box for bulk containers
- Long runtime due to battery operation, optional AC mains operation
- Battery charge level indicator
- Backup system for permanent operational readiness to bridge the charging time
- Intelligent electronics „made in Germany“ guarantee trouble-free operation even with high frequency of use
- Individually configurable spray settings, e.g. output quantity and spray burst duration, guarantee cost efficiency (calculate yourself at geck.de/consumption-calculator)
- Optional: Central radio-based control with fill and load level monitoring incl. dashboard applications for evaluation of hygiene events
- CE marking
