# Geck® Indoor Tracking XO

## Person tracking with Xovis sensors

In cooperation with our partner Xovis, our indoor tracking system XO solves a central problem of locating people inside your closed rooms or halls. Especially if you want to track and analyze the customer's walking paths even without shopping carts or baskets.

### Your benefits

- Tracking and recording of walking paths of persons in closed rooms or halls in real time
- Evaluation of tracking data via a dedicated dashboard with additional analysis and evaluation tools
- Various data protection levels - all GDPR - compliant
- Solutions are customizable and scalable for your on-site applications
- Indoor Tracking XO can be combined with other products from the Geck Suite

### Technical information

- Use of Xovis sensors (3D camera systems)
- Number of sensors depending on installation height and exhibition area  
Network integration via a „Spider“ connector for installations of more than 9 sensors
- Different privacy levels preset and selectable
- Easy installation of the sensors on the ceiling
- Optional outdoor sensors for your outdoor application

Do you have any questions?

We will be happy to advise you personally on the composition of your individual indoor tracking solution at

phone +49 2352 542-0

daily in the time from 8 to 16 o'clock.
