

Ultimate Click & Collect

More power. More control. More efficiency.

Your customers are happy about the Click & Collect service in your store. Are you looking for more efficiency and reliability when processing all those orders? Then our Ultimate Click & Collect is exactly the right solution for more power, more control and more cost efficiency.

Benefits of the Geck Tracking-System:

- Combining several orders simultaneously in one run
- Optimisation of the routes
- Showing the route via the integrated 10.2 inch touch display
- Navigation on the shortest route to the next product
- Overview of routes and orders to increase the efficiency of employee capacities and many other analyses in the Geck Dashboard
- Minimisation of the error rate thanks to the clear structure of orders and routes and sorting in the trolley boxes
- Reduction of depreciation by observing the best-before date when selecting products for Click & Collect

→ The innovative technology for trolley tracking works via infrared light and is already built into the trolley's display.

→ The components on the ceiling of the store to utilise the positioning technology can also be installed at a later date.

→ The tracking technology of the ceiling installation can also be used for the Geck UltimateShopper Plus shopping trolley.
